About Friends For Life

We are the fastest growing *No Kill* animal rescue and adoption organization in Houston, dedicated to offering *No Kill* solutions to the animals of Houston and the people who want to help them. Our programs include rescue, rehabilitation, adoption, humane education and animal food/supply support.

Our mission

Friends For Life, a non-profit organization, redefines “adoptable.” We rescue, medically treat and place animals into loving homes. We provide support to owners to keep animals in their homes and out of the shelter system altogether. Our humane education programs promote the view that animals are not disposable, but are companions who deserve our care and compassion. Our youth advocacy programs facilitate bringing to life kids’ ideas to make the world a better place. **Friends For Life** is working toward expanding our community circle of compassion toward animals and toward each other.
